- Worked on front-end development using HTML, CSS, JavaScript, and WordPress.

AppsGenii Technologies — AI Programmer Intern

Jun 2024 – Aug 2024

- Worked on Python, Django, and object detection projects.

PROJECTS

Posture Pro — Final Year Project

AI-powered posture assessment platform making physical therapy more accessible and affordable. Combines AI-driven posture analysis with personalized exercise recommendations, reviewed and refined by licensed doctors, giving patients trustworthy guidance without frequent in-person visits.

Live Demo: posturepro-frontend.onrender.com

FullStack E-commerce Website

Full-stack shopping platform with cart, login/signup, order placement, and Stripe payments, plus an admin dashboard for item and role management. Built with ReactJS, Node.js, Express.js, and MongoDB.

FullStack Chatting Website App

Real-time chat application with private messaging, group chats with member management, and image sharing. Built with ReactJS, Node.js, MongoDB, and Socket.io.

Bite Box — Food Delivery Mobile App

Mobile Application Development course project with a modern design and seamless functionality. Built with React Native, Firebase, and Sanity.io.

Restaurant Management System

Database course project managing customer, waiter, and table details. Built with PostgreSQL and a custom front end.
